

## White Horse Theatre at the MBG – one of the highlights of the year

It was Monday morning, 08:05 o'clock. Usually a time when everybody is a little bit tired and slow – but this morning everything was different. All pupils from grade 8 and 9 were sitting in one of the old gyms when the show began.

This morning White Horse Theatre was playing a modern version of Shakespeare's comedy "Two Gentlemen of Verona", called "Two Gentlemen". Everything was easy to understand, as the actors specialize in performances for schools. White Horse Theatre is actually a professional theatre company which helps to teach English by showing its plays all around the world.

The play was about two boys, Vincent and Piers, who have always been friends. But when they are sent away to boarding-school, something really bad happens: They both fall in love with the same girl. And guess who it is – to make matters worse, it is the headmaster's daughter, Silvia!!! Of course we all asked ourselves: Will they stay friends if they have such a major conflict? To our surprise, they really stay friends in the end, although they are both left by their girlfriends.

After the play the boys and girls were allowed to ask questions if they had some. Of course not everybody was brave enough to ask in front of the whole school, so we also had the chance to meet the actors alone after the play. They were very kind and open for everything.

It was a fantastic experience and a good opportunity to get to know the English language a little better! We're all looking forward to welcoming White Horse Theatre again at the MBG, as it was definitely one of the highlights of the year.
